# Instructions to make your own Christmas card

1. Fold along the dotted line
2. Colour in the picture at the front of the card
3. Write your name at the back of the card above the dotted lines
4. Write your message inside the card. Try to write your message in the centre so you have space to write who to and from. You could write Merry Christmas or Happy Holidays or any message you like
5. You can then address the card. Use the inside of the card at the top - it could be ' Dear Grandma and Grandma' or ' Dear Aunty Sue'
6. Write your name at the inside on the bottom
